

## Hands-on, FUN Science Enrichments

### Get Buggy©

Discover the incredible world of bugs. Design your own edible bug, see through the eyes of bugs, and make your very own beehive.

### Forensic Fun©

Solve the crime by lunch time! Become a CSI technician as we make teeth impressions, lip prints and fingerprints. Earn your special CSI badge.

### Rock On!©

Step into the world of Geology. Learn about gems, rocks, and minerals and where they come from. Dig for gems, classify them and keep what you find.

### Lab 101©

Find out what an indicator is to chemists. Discover the pH scale, and learn about acids and bases as we test household cleaners and chemicals!

### Moovin' and Groovin'©

Become "energized" as we discover potential and kinetic energy. Learn about different forms of energy.

### Edison's Workshop©

Explore the amazing world of electricity. Learn what's "current" as you make electrical circuits and make your own LED flashlight.

### Our Living Planet©

Discover our living planet as we learn about the greenhouse effect and carbon footprint. Make a solar picture and an environmentally friendly cleaner!

### Beauty and the Yeast©

Discover what a really FUN Guy FUNGI really is! Learn about Louis Pasteur and explore mold, yeast and mushrooms and make your own fungi prints.

### The Body Shop©

Take a deep breath as we listen to our heartbeat with real stethoscopes. See your own pulse! Learn about the bones

### Smarty Plants©

Discover the amazing world of plants. Learn about photosynthesis and have a hands-on look at roots, shoots, and transportation inside a plant.

### Polymer Parade©

Discover the 'solutions' as we make different types of ooey-gooey stuff to keep! Stab a pencil through a plastic bag and not spill a drop!

### Air with Flair©

Uncover the mysteries of air, if you dare! Learn all about air, and its amazing properties. Have a tug of war with suction cups!

# Science Made Fun!

*Shalini does an amazing job in bringing enthusiasm and cultivating curiosity within the kids towards learning Science. She has amazing experiments prepared well in advance. The kids love her! My son did this program twice and wants to do it again!*

**Ramya S.**  
Ohlone Elementary  
Palo Alto, CA

*My son loved the different hands-on experiments. I was intrigued by the cool concepts he learned every week and I think he learned a lot new interesting things.*

**Agnes L.**  
Los Altos, CA

*My daughter loved loved loved the class. We are so happy we signed up. It was fun, interactive and educational. Have signed up for the next session as well.*

**Malika K.**  
Gardner Bullis Elementary  
Los Altos Hills, CA

*I met Ms Gita & Ms Shalini in person, and my son Viv was very excited on the drive back home from Blue Hills, talking about "touching lightning" and other cool stuff. We really appreciate all that you do through your program - thx much!*

**Ajay B.**  
Blue Hills Elementary  
Saratoga, CA

## REGISTER TODAY

### Science Enrichment

After School Enrichments meet for 1-hour each week over an 8-15 week period. All supplies needed for the program are included.

With a wide variety of different programs covering physical, earth and life sciences, we provide a different science experience every week. Your young scientist will become a chemist creating chemical reactions, a physicist refracting light, a biologist extracting chlorophyll, a geologist classifying gemstones, an entomologist, meteorologist, archaeologist, paleontologist and much, MUCH more!

Change your Afterschool Program into a Sizzlin' Science Laboratory and turn your students ON to science! All programs are totally FUN, totally hands-on and totally participatory and interactive for each student. All programs are geared for the 1st through 5th grade child.
