

# Make your school's excellence stand out with Science Made Fun!

## Magnet Makers©

Discover the cool properties of magnetism. Learn all the 'attractive' facts!

## ExSEEDingly Cool©

Discover the different ways seeds travel. Dissect a seed, find out what seeds need, and take some home to grow.

## Spooky Spiders©

Get caught in the vast web of information about spiders. Learn the differences between a spider and an insect. Make your own edible spider!

## Fossil Fun©

Step back in time to the age of dinosaurs. Become a paleontologist as we explore real fossils and make our own fossil to keep!

## Germs Make Me Sick©

Learn about those nasty little germs that make us sick. Find out how easily germs can be passed around and how you can keep germs off you!

## Out of Sight Light©

Discover what light is. Bend light to find ROY G. BIV. Have fun as we explore shadows. Make your own UV detecting bracelet to keep!

## Weather or Not©

Become a meteorologist! Learn about weather, and the water cycle. Make your own wind sock and snow!

## Fun'omena©

Get the facts....on those natural acts! Earthquakes, hurricanes, tornadoes and volcanoes. Have FUN as we make them happen in front of your eyes!

## Fantastic Static©

Explore fun and hair-raising facts about Static Electricity!

## Space: The Final Frontier©

Learn about our Solar System and constellations! Make a planet hat to keep!

## Wacky Water Workshop©

Discover how cool water really is, and its unique properties that make it the 'wonder' molecule that sustains life on our planet!

## Matter Matters©

Get ready to investigate the states of matter and the changes between them! Make your own Space Mud and have an evaporation race!

# Science Made Fun!

*My child's incredible preschool found this program and has brought it in to teach the children science once per week. The amount we love this program cannot be adequately described in words. Every Tuesday we wake up and say "today is science class!"*

**Em O.**  
A Place to Grow Preschool  
Campbell, CA

*Love this program! Teacher Shalini is an amazing wonderful teacher who has limitless patience and a true love of teaching within shines through.*

**Anu S.**  
Los Altos, CA

*Amazing interactive class for curious kids! My little one absolutely loves this class. Thank you! Can't wait to enroll in the next year class.*

**Nina G.**  
Los Altos, CA

*My son loved the different hands-on experiments. I was intrigued by the cool concepts he learned every week and I think he learned a lot new interesting things.*

**Agnes L.**  
Palo Alto, CA

**"Tell me and I forget. Teach me and I understand. Involve me and I learn."- Ben Franklin**

## BOOK TODAY!

### Preschool Science Enrichment

High Touch High Tech can help your preschool stand out from the competition. With programs that are totally participatory and hands-on, High Touch High Tech nurtures budding young minds with amazing programs especially designed for preschool age children.

Every week a High Touch High Tech scientist leads children on a 30 or 45 minute non-stop adventure in science. From archaeology to zoology, children engage in a different science concept with experiments and activities that help them understand the concept. At the end of each program each child receives a Parent handout of what they learned, and with most programs, a take-home experiment.

Program can be made payable by interested parents, at no cost to school site. Minimum student enrollment may apply.

High Touch High Tech is science made FUN!
